Continuing a legacy of superior service

As we begin the new year, we want to take this opportunity to reinforce ECMC's commitment to continue the legacy of superior service that you and your students have relied upon for years from the California Student Aid Commission (CSAC)/EdFund and ECMC.

As the designated guarantor for the CSAC/EdFund portfolio, we will continue to provide services that support student-focused outreach, which include:

- College access
- Loan counseling
- Financial literacy
- Default prevention
- Regional training workshops and online webinars
- Quality publications

While the EdFund brand will gradually be replaced by ECMC's brand, we are committed to providing you and your students with the best from both the EdFund and ECMC product lines. In the interim, you can continue to access these resources as you currently do. We will keep you apprised of enhancements to our product and service offerings throughout the transition.

Additionally, ECMC is excited to support the California Student Aid Commission and what they are doing for California students by providing funding, scholarships and technical assistance for the Cal Grant Program, Cash for College workshops and statewide outreach. We will provide support for the high school counselor workshops and offer publications informing students, parents and counselors of state and federal financial aid programs, including the highly regarded *Fund Your Future*® publication. The 2011-12 version of this publication is available for ordering at www.edfund.org/FundYourFuture.

For more information about our products and services, please contact an ECMC representative at 1-866-222-2680.

We look forward to serving you and your students.
