Pe

Program Evaluator

**The data you need
for your student success goals.**

Elements

- Sophisticated analytics evaluate the health of your population by program, including completion rates and student loan repayment success
- Interactive HeatMap to forecast average starting wages by program of study and student location
- Reasonable debt levels determined and displayed based on future income potential
- Powerful data forecasts the average starting wage by program of study and location
- Student-level data for each loan repayment status and program of study
- Real-time job search tailored to each student and program of study
- Visual planning tool facilitates incoming student program selection

Benefits

- Provide enrollment and retention support
- Identify trends and student risks by program
- Provide early and focused intervention
- Increase student loan repayment rates
- Supplement career services support and tracking
- Strengthen program and cost planning
- On-demand reporting

Designed to work within our award-winning LoanTracker® system, Program Evaluator puts the power at your fingertips to effectively manage your programs and provide your students with essential support.
